

DIGITAL SOLUTIONS

Digital product passport

Digital solutions - The Digital Product Passport (DPP) for a sustainable future

Design your product processes to be transparent and environmentally friendly with the Digital Product Passport (DPP), an innovative concept developed as part of the EU Green Deal. The EU's goal is to become the first climate-neutral continent by 2050. The DPP supports you in achieving this goal by providing comprehensive information on the entire life cycle of your products and promoting a sustainable circular economy.

Our "IDconnect" solution makes the Digital Product Passport easy to implement

- ✓ Seamless integration: The [innovative "IDconnect" software solution](#) from our subsidiary smart-TEC enables effortless implementation of the DPP in your company
- ✓ Full transparency: You and your customers receive comprehensive information about the origin, composition, materials and disposal options of your products.
