

DIGITAL SOLUTIONS

Digital product passport

Digital solutions - The Digital Product Passport (DPP) for a sustainable future

Design your product processes to be transparent and future-oriented - with the Digital Product Passport (DPP). As a central component of the EU Green Deal, it makes the value chain of a product traceable. The DPP bundles information on origin, materials, composition, repair, reuse and disposal options - across the entire life cycle.

In this way, you increase transparency, strengthen your sustainability strategy and efficiently meet future legal requirements.

Labeling solutions for the digital product passport - flexible and future-proof

Our labeling solutions form the technical basis for the DPP. RATHGEBER ensures unique product identification via QR code, RFID or NFC. As a result, product data remains securely linked throughout the entire life cycle and can be retrieved at any time - regardless of your

Managing directors: Business economist (VWA) Andrea Schräggle, Dipl.-Wirtsch.-Ing. (FH) Andreas Schräggle

Commercial register entries: Andreas Schräggle GmbH

Registered office Munich: AG Mchn. B 44890, RATHGEBER GmbH & Co. KG: AG Mchn. A 8238 - VAT ID no.: DE 129 725 198

existing systems or processes.

IDconnect - the optional software for efficient DPP data management

For simplified management of DPP data, smart-TEC, as part of the RATHGEBER Group, offers a powerful addition with [IDconnect](#):

- ✓ **Structured data organization:** Collection and maintenance of all product-relevant information.
- ✓ **Digital provision:** Product data available at any time for customers, service partners or authorities.
- ✓ **Flexible integration:** Can be used to supplement or connect to your existing processes.

This gives you maximum freedom in DPP implementation - and, if required, you can use software that efficiently supports your processes.
