

SAMPLING

Digital sampling

3D visualization and AR

Our digital solutions broaden your perspectives. With our 3D visualization, your marking solutions can be created digitally and projected onto your product or other surfaces as an AR (augmented reality) application.

This technology saves resources and improves the imagination of decision-makers. By using 3D visualization and AR applications, the process is not only faster, but also more cost-effective than a conventional sample order.

Use our digital solutions to visualize your marking solutions in 3D and experience them as an AR application. Our experienced team will support you in creating the best digital representations for your requirements. We will be happy to show you examples and offer you expert advice.

Your benefits:

RATHGEBER GmbH & Co KG - Kolpingring 3 - 82041 Oberhaching - Germany
Managing directors: Business economist (VWA) Andrea Schrägle, Dipl.-Wirtsch.-Ing. (FH) Andreas Schrägle
Commercial register entries: Andreas Schrägle GmbH
Registered office Munich: AG Mchn. B 44890, RATHGEBER GmbH & Co. KG: AG Mchn. A 8238 - VAT ID no.: DE 129 725 198

- ✓ Enhanced perspectives thanks to innovative 3D and AR technologies
- ✓ Resource-saving and cost-effective implementation
- ✓ Improved decision-making thanks to realistic visualizations
- ✓ Quick implementation and customized solutions
