

SAMPLING

Sample order

Your security before series production

Our sample order allows you to produce original samples in small quantities before series production. This allows you to ensure that all aspects of your order meet your expectations.

A sample order provides additional security by giving you the opportunity to clear up any last doubts and check all the details. You can use the samples to create and test your own prototypes for product presentations.

Your benefits:

- ✓ Additional security thanks to the verification of original samples
- ✓ Possibility to create and present your own prototypes
- ✓ Elimination of uncertainties before series production
- ✓ Personal advice and support from our experienced team
