

SUSTAINABLE SOLUTIONS

Sustainable solutions - Green Label

Sustainable labeling solutions for your brand

Our aim is to make your labeling more sustainable as part of our Green Label concept and to offer you alternatives to conventional materials. By developing resource-saving solutions and using recycled materials, such as the newly developed R-PET film, we actively contribute to reducing the ecological footprint.

Natural materials such as cork and wood allow you to design your brand communication in an environmentally friendly way and make your efforts for a more sustainable development of your products visible. With these solutions, you can make a strong statement and stand out from your competitors at the same time.

We work closely with our material suppliers to continuously promote and test advances in sustainable materials. From the initial idea to the final implementation, we support you in the
